Do you want to travel back in time and explore the fascinating world of the ancient Greeks and Romans? Then the mythology club is the perfect fit for you. Starting this exciting journey, we will learn about different myths of the ancient world and try to find out their true meaning. We will also discuss about important Greek and Roman figures, diving into their lives and exploring their qualities. Be ready to use your creative side too, as we will make different pieces of art (board games, comic strips, top trumps, brochures) based on the myths that we will research.

Critical thinking is one the most important skills a student must acquire in the 21st century. Academic achievement no longer accurately reflects one's ability to perform well in the workforce, hence employers are scouting for employees with critical thinking skills. Over the years, an increasing number of countries have adopted holistic school syllabi for their students to hone these skills in different aspects. Instead of spoon-feeding students, teachers are assigning projects that require them to think creatively and critically to solve problems. We can use a few aspects of critical thinking by reading current affairs and trying to understand and evaluate the news so as not to be fooled by misleading headlines, clickbait and fake news online. Richard is very keen to introduce these skills to our boys in Years 5 and 6, not only for the positive impact they will have as they face forthcoming interviews, but as a life skill that could prove invaluable.

THIS CLUB WILL NOT APPEAR ON THE FIREFLY BOOKING SYSTEM.
INSTEAD BOYS (NOT PARENTS) WILL BE REQUIRED TO WRITE A LETTER OF APPLICATION BY MONDAY 4TH DECEMBER TO BE CONSIDERED BY RICHARD McMILLAN. ONE GROUP WILL HAVE THE FIRST HALF OF TERM AND THE OTHER WILL HAVE THE SECOND HALF OF TERM.

Debating has proved so popular that we will be offering three clubs now; one on Monday and two on Thursday. This club should provide the boys with valuable skills that will prove so useful in the near future, as they approach a number of interviews over the coming years.

What are the Benefits of Debating?

- Improved critical thinking skills.
- Pupils acquire better poise, speech delivery, and public speaking skills.
- Increased student retention of information learned.
- Improved listening note-taking skills and increased self-confidence.
- Enhanced teamwork skills and collaboration.

Also, there will be opportunities to compete with other schools in the future.

Are you curious about the world? Do you want to understand more about why we interact with it in the way that we do? If so, the St Anthony's Geography Society is the perfect place for you! St Anthony's geography society is open to years 4, 5, 6, 7, & 8. It will run every Thursday morning with Georgina at 08:15-08:50am. The geography society will be involved in hands-on projects in the local area and regular visits to Hampstead Heath. We will also engage with scenario role-playing, exploring such issues as how the school and the government can respond to the current energy, as well as other activities which involve modelling of the world trade system. You may be subject to the opportunity of joining conferences led by the geographical society but also arranging guest speakers to come to St Anthony's. This society will enhance your ability to be critical of the world around you and make a difference to your local area and your school.

Achieve Arts Speech and Drama School are one of the top LAMDA providers in North London and we have secured one of their fabulous team to start sessions at St Anthony's. Karen, the co-founder came to our school this week and spoke to us about the 1-2-1 and group sessions and the aims for each student. Achieve Arts are registered as a private centre with LAMDA and they have a 100% success rate in all LAMDA examinations. The team are highly experienced, having all trained at accredited Drama Schools and they teach important life skills such as solo speaking, vocal projection, vocal diction, confidence, communication skills and of course LAMDA graded work.

Background:

Little House of Science is built on the principle of nurturing the natural curiosity and quest for knowledge which kids have about the world around them. The foundation of everything around us is based on the principles of science and we aim to inspire our pupils. Little House of Science is based on teaching Life, Earth, Physical Sciences (covering biology, chemistry, physics, engineering, robotics). Each week we cover a new topic filled with exciting, risk-free experiments and demonstrations. Our teachers who are scientists or teachers with a science background, ensure our pupils enjoy a thrilling, fun environment to nurture their creativity and expand their knowledge. By equipping children with scientific knowledge in a fun way, we believe we are also contributing to the ability to analyse and solve problems. Little House of Science incorporates the national curriculum for KS1 and KS2 plus hundreds of additional topics which are part of STEM to give children a broad understanding of many topics. Our age-adjusted classes are designed for children aged between 3-12 years.

In Cypher Robotics Club, students will get hands-on with code and STEM using the Cypher Lego Wedo robotics kits. These fun robots can react to various stimuli in the environment, and we will learn how to program with actions and reactions to these in this Cypher Robotics Club. Lego Wedo is a fun way to learn coding, with lessons following the students own pace, they offer a great way for kids to challenge themselves with their learning. We are sure that students will greatly enjoy working with our Cypher Teachers and Lego Wedo in our Cypher Robotics Club and we look forward to welcoming them to a classroom soon!
